

Palmyra Public works

September 3 2025
Road go over

Things not listed on every road

Some bigger trees dead overhanging the road the road that should come down

Places that should have guardrails

Picture will be posted on here to see placement of culverts

Square rd and michaud rd not on here as it should be completed this year

Square rd could use shape corner signs

Gee road

Culvert #1

5ft added to culvert to help with washing out would also help clean up the mess thats there and clean up the safety hazard. Ends are bent but belive can get them bent back to added the 5ft

Brush cutting / chipping

Ditching

Street signs looked good

Gee rd culvert #1

Culvert #1

Wyman rd

Culvert #1

Needs att what way dose water flow also needs to be dropped

Culvert #2

Double culvert thats side by side so wasn't chinked so is collapsing and sink holes started in road way

Drive way #83 culvert is collapsing

Drive way #80 culvert is gone put a new drive way in with used culvert wants us to fix that one and do away with the other.

Culvert #3 is rusted out and ditch is a foot lower then the rd keeping standing wat in the ditch

Meadow In culvert added a pice of sd-40 pipe to culvert cant see threw it. filled with dirt?

#4 bog hole before stafford drive end towards bog is messed and pulled up

#5 is good

#6 small sink hole started in rd way. Stream was dry so decided to walk threw it. Please see pics old granite bridge with culvert added. Culvert has pulled away no gravel in site just rocks can see up 3 to 4 ft towards road way.

How long before rocks give out and roadway washes out?

Brush cutting / ditching

Street signs looked great

Culvert #2

Culvert #3

Meadow In

Culvert #4 bog area

Culvert #6

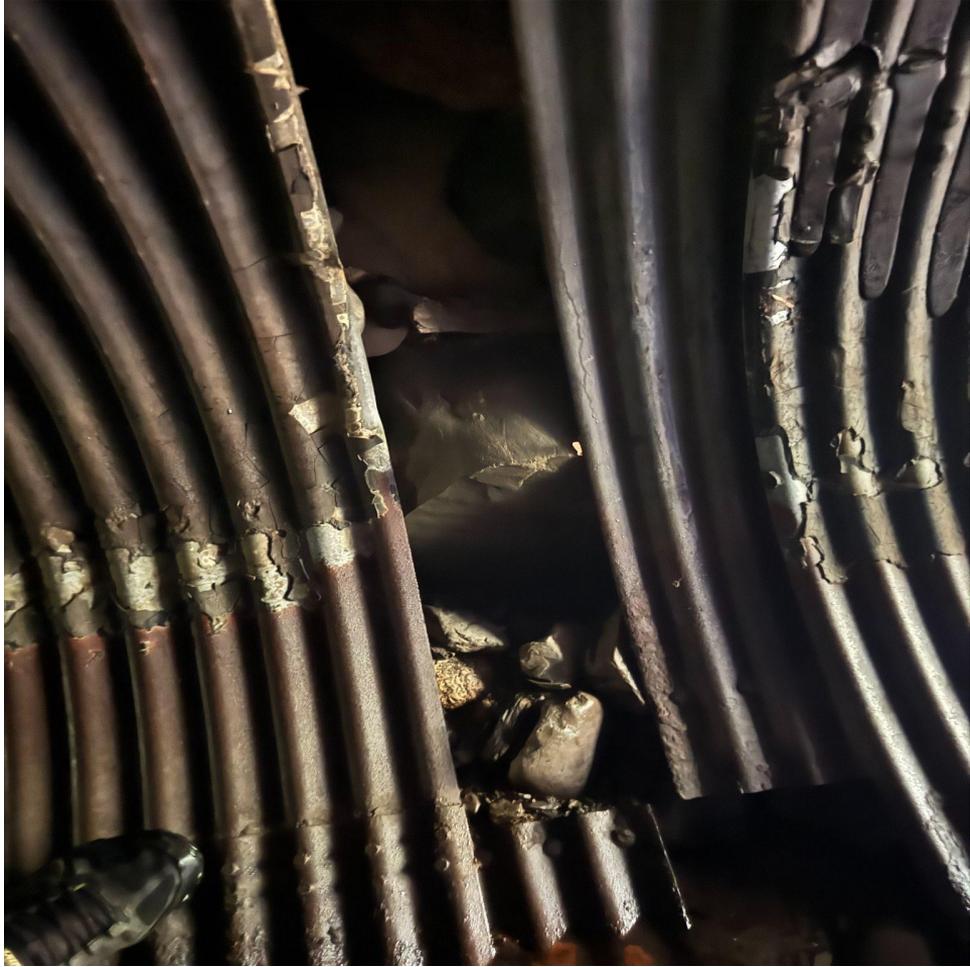

Culvert #6

Culvert #6

Culvert #6

Gale rd

#71 covert is collapsing

Culverts around bog rip rap to help with the road washing out

141 culvert is half full and cant find the down hill side end

Brush cutting and ditching

Ditching would help bring ditches up and not be so deep, prevent possible roll over also a few french drains to help so water down and help with wash outs

#71 and 141

Ditch washing french drain and bring ditch up ?

Gray rd

Webb ridge rd

#1 culvert is good but needs to be dropped a ft to meet the ditch. Pavement is sinking and holes starting in pavement

#2 culvert bottom is rotted out

#3 culvert is plugged

#4 culvert humps in the middle. culvert pitching culvert both way

#5 culvert cant see threw culvert keeps standing water on one side culvert pitches both ways

#428 culvert is $\frac{1}{2}$ to $\frac{3}{4}$ plugged

Richards rd sign is missing

Brush cutting and ditching

#2 and #3

#4

Davis rd

#1 is good

Cutting brush back and ditching

Culvert at very beginning of road lifting called state to have it fixed

Raymond rd starting from webb ridge

#1 culvert could be reset down a foot to match the ditch

#2 is good

#3 is good

#4 culvert collapsing is pulled up a little with a sweep in it

#5 is good

#6 was taking out and never put back keeps standing water in ditch

#7 is good

#8 is a double culvert plzz see pictures

#9 is starting to collapse

Rocks coming threw pavement between 1 and 2 culverts and other spots on the road

#183 culvert needs to be cleaned out and big rock from backing it up

163 buttom is rotted

#164 both culverts replaced and cleaned out

108 culvert is rusted out and very old but brand new pavement

#76 plastic culvert plugged full

#9 starting to collapse not much over culvert

Signs are good

Brush cut and ditching

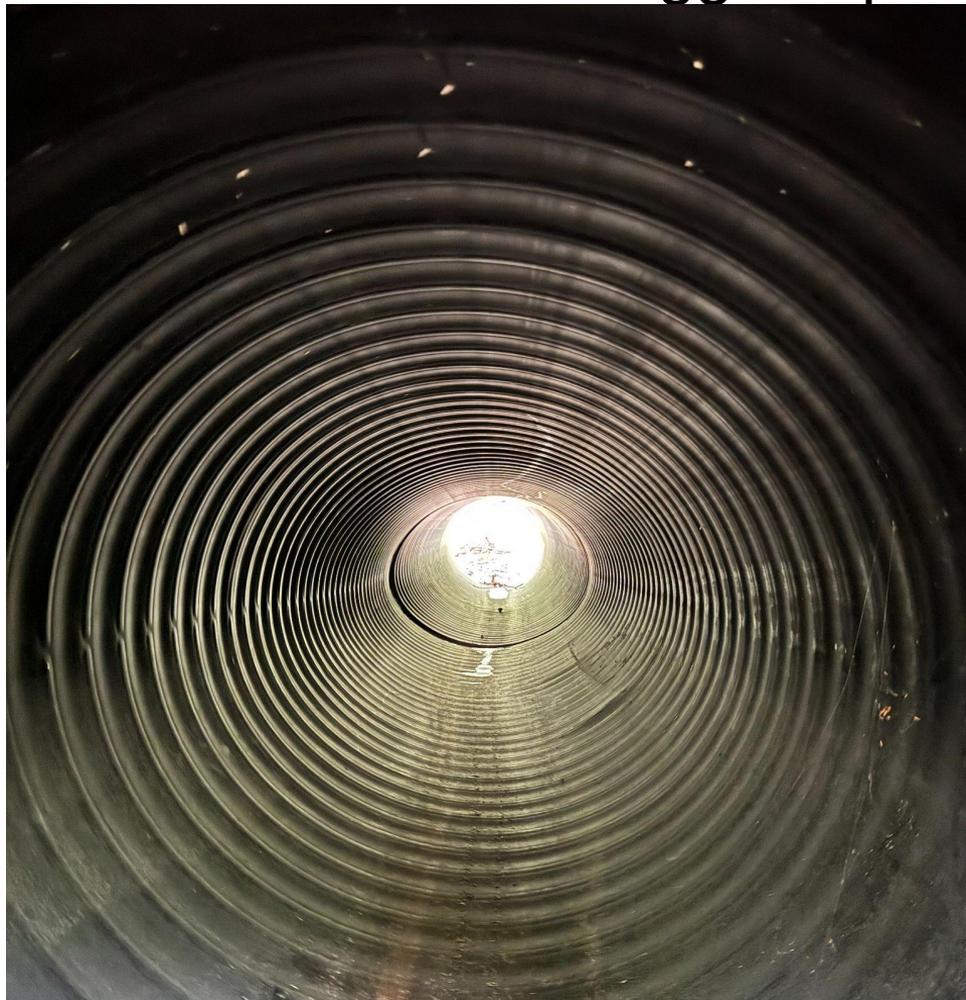

#4 and rocks in roadway

#8 culvert

#8 culvert start to egg shape

Cook rd

#1 culvert is washing out not long enough

#2 culvert collapsing plastic

#3 culvert is good

#4 culvert is collapsing plastic

Brush cutting and ditching

Signs where good

Could be graded

(more of a private way)

Smith rd

#1 culvert is good

#2 double culvert is good

#3 culvert going into nokomis drive needs to be replaced asap side is rooting out band is gone someone has a rug in it to stop dirt from coming in please see pictures

Road could be graded

Would like to see the town pave the first 30ft to help with all the pot holes as turning on to the road is pushing the gravel also would help with grading so grader is not out in the middle of the main rd

Smith rd / nokomis dr

Shy rd

#1 culvert is good

#2 please see pictures homeowner rerouted ditch listed on the map from state as a water way

#3 culvert could go down or fix it when ditching bring the ditch up a little

4 culvert needs to be replaced

#53 culvert has a big hole and is filled with dirt

#143 culvert is collapsed pavement drive way

Signs looked good road looked good

#2 culvert

#4 culvert

Dog town one of the worst roads in the town

#1 culvert is good road way given away due to road keeping water

Should have a culvert by the bog area at power lines just a mater of time before rocks plug

Road is full of rocks and stumps

Road should be rebuilt

Trees where cut back 8/28/25

Ditching

Dog town

Dog town

Hurds corner

Brush cut back

Ditching / high shoulders

Overlay pavement

Fuller corner rd

Ditching

Washout fixed

Culvert at first house rotted out

Speed limit sign?

Trees have been cut back

Cool rd

Brush cutting back

Ditching

#1 culvert could be lowed and the sweep taking out of it is collapsing holding some water in it

Road could use a resurface

Cool rd

South ridge rd

#1 colvert is colasping

#2 colvert is good

3 colvert is colasping and is over a foot high then the ditch

#99 around culverts cleaned out

4 is good but could be longer as rd washing dirt over it

135 used 8in sd-35 and a pice of 12in culver for culvert new house is full of gravel

#5 colasping a little but good

Welch rd to box 56 rd wash out very steep ditch

Signs where all good

Brush cutting

Ditching

What can we do to help the shoulders

#1 culvert #3

#135 new house

8in into a 12in culvert dirt has fill culvert

Lang hill

#1 collapsing/ rock driving threw it

#2 starting to collapse / egg shape

#3 collapsing

is rutted out

#4 #5 #6 #7 #9 #10 are all good

Brush cutting and ditching

Signs where good

#264 culvert needs end cleaned out and flushed

Culvert #1 and #2

#3 culvert and #8 culvert

Page rd

#1 #2 #3 are all good

Cutting brush and ditching

No stop sign

Hicks pond rd

#1 #2 culverts are good

A few driveway culverts could be lowered to be in the ditch line

Brush cutting and ditching

No stop sign

Within the next few years road could be resurfaced

(the last time grading was pulling up base gravel

Marsh corner rd

#1 is collapsing sinkholes around culvert

#2 is good

Brush cutting and ditching

Could use a new up to date stop sign

#1 culvert

Weeks rd

#1 culvert ends been bent way up and pulled up hill so is full of dirt

#2 overflow at bog is full from beavers and not working

#3 culvert is good

Brush cutting and ditching

Signs are good

Weeks road would like to see done to help with road

Bring up 8in top of hill to after bog (estimated around 850 yards)

Reasons to bring up rd is to help with water run off and get material over the culverts (grading over the years material dose disappear)

Also bigger trees cut as being hit the wings. grind stumps as roots are under the road

Jack hammer on a piece of equipment to help with ledge down the hill

#1 culvert

Spring hill rd starting from lang hill

#1 #2 #4 #6 #7 #8 #9 #10 #12 culverts are all good

#3 culvert really needs to be reset pitching both ways keeping water in it and starting to rust out looks like it was done in a 2 pice set and not lined up

#5 is rusted out

#11 middle culvert of the 3 at bog hole rusted out on bog side

Brush cutting and ditching

No speed limit sign

Spring hill rd improvements that could be done

Culvert #1 double as stated culverts are good but could be longer to match in the ditch line and stop rd from washing out

Could also make beaver boxes for the culverts like made for weeks rd

Very hard to clean out culverts as steep as it is

Culverts # 10 #11 #12 at the bog area by st albans rd any thoughts on a box culvert?

Few area dug up and replaced with fabric and new gravel (soft areas)

Also the beaver mess that keeps getting pushed threw is piling up and starting to move the stream. (mess is no longer on town right away but what if it backs up and washes road out? Please look at pictures

Improvements to lang hill and spring hill interaction so cant go straight threw

Beaver mess spring hill rd, st albans rd side

#3 culvert and #5

#11 culvert

Miller corner rd

#1 culvert is good

Brush cutting

Ditching is ok

Dead end sign could be replaced as its been shoot a couple times

someone has posted rd with signs p

(see pic)

Miller corner rd

Weirs rd

#1 culvert is good

No speed limit signs

Brush cutting and ditching

Hope rd

#1 culvert is good

#2 culvert is a double at bog area not good please see pictures

Brush cutting and ditching

Signs looked good

Hope rd #2

Hope rd #2

Libby hill

#1 #2 #3 #4 culvert is good

Brush cutting and ditching

High shoulders

Signs looked good

#19 drive culvert id plugged full

Badgerboro rd from libby hill

#1 not long enough drops right off at pavement on one side the other side someone added a piece of pvc

#2 collapsing

#3 flat in middle

#4 perfect just replaced

#5 starting to collapse

6 flat in the middle foot higher than the ditch

Badgerboro rd slide #2

#7 90% flat

#8 collapsing and messed up

#9 collapsing

#10 is egg shaped

Brush cutting and ditching

Signs all good

Badgerboro rd

Badgerboro rd #2 and #3

Badgerboro rd # 5 and #6

Badgerboro rd #7 #8

Badgerboro rd #9 #10

Gray rd

#1 culvert is good put could be reset hump in the road needs to be lowered

#2 is collapsing

Brush cutting and ditching

Signs are good

Harris rd

Brush cutting and ditching

All owned by same person on with the start or a quarry

Signs need to be fixed

Thank you for all your support

The next slides are what we completed in 2025

Completed michurd rd

1244 ft of ditching

Cut trees back from corners to help with visibility around them

Replaced 18in x 40ft culvert across rd way and dropped it 2ft to match in ditch line
with helped with cover over the culvert and will help drain the water away from
the rd

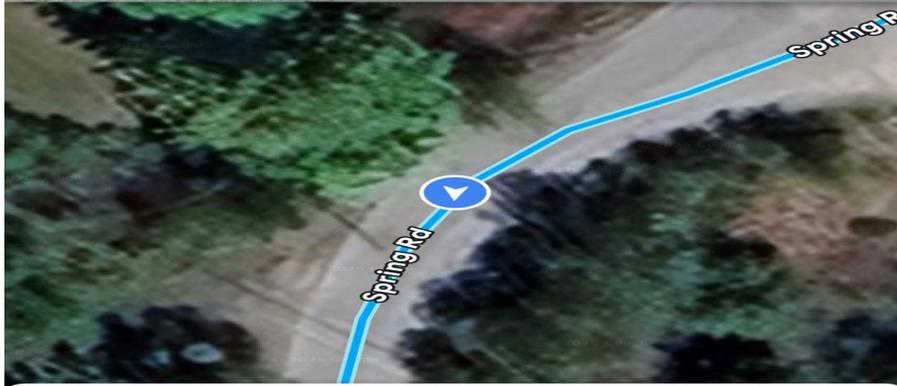

Repaved

Michurd rd

Michurd rd

264 Michaud Rd

7 months ago · [See more dates](#) >

Completed on dog town

Trees and brush cut back

2659ft of ditching

Rocks removed from middle of road way

Repaved areas cut out

Cutting trees back helping with snow melting and visibility

Ditching and shoulders cut down to help with drainage

(most rocks had 1in or less of dirt over them)

Dog town

Dogtown

Square rd

Trees and brush cut back

9678 ft of ditching

Replaced rd culvert 36" x 38ft dropped culvert over 2ft ft to help get water out of the ditch

Replaced 4 driveway culverts

Dug out and dropped 3 culverts

Replaced state culvert (state supplied culvert

Rock weirs put into place (helps slow down water to help with erosion)

Repaved culverts

36" x 38

Square rd

Cool rd

Cut trees and brush back

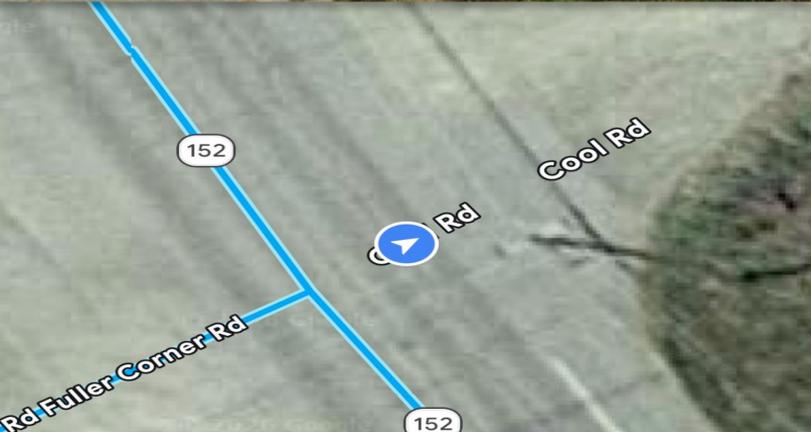

1618ft ditched

Put in one culvert to help with drainage

Cool rd

Cool road

Fuller corner rd

Trees cut back

691 ft ditched

Washed out fixed

Replaced stop sign

Fuller corner rd

Gray rd

Cut trees and brush back

1135ft ditched

Replaced 2 culverts

No photos

Badgerboro rd

Started cutting trees and brush

Started ditching

Replaced 3 drive way culverts

Replaced 1 road culvert 15" x 30'

Removed bigger dead trees

Badgerboro rd

Other things we have done to help around town

Cleaned and painted W,Star
